Mathematics/Statistics Combined Masters

THE MASTERS IN MATHEMATICS COMBINED WITH THE MASTER'S IN APPLIED STATISTICS AND DATA SCIENCE

With proper course choices, students may earn both a Master's in Mathematics and a Master's in Applied Statistics and Data Science simultaneously with a total of just 16 courses. This requires double counting two eligible courses each way. Students interested in earning both Master's degrees should consult with the directors of both the Mathematics and the Applied Statistics and Data Science programs in order to formulate a course plan.

Program: Mathematics and Statistics
Type: Master of Arts
